**Important Note**  
**Please Read Carefully****Study Tips**

This product will provide you questions and answers along with carefully compiled and written by our experts. Try to understand the concepts behind the questions instead of cramming the questions.

Go through the entire document at least twice so that you make sure that you are not missing anything.

**Latest Version**

We are constantly reviewing our products. New material is added and old material is revised. Free updates are available for 90 days after the purchase. You should check your member zone at CramBible an update 3-4 days before the scheduled exam date.

Here is the procedure to get the latest version:

1. Go to [www.CramBible.com](http://www.CramBible.com)
2. Click on Member zone/Log in
3. The latest versions of all purchased products are download from here. Just click the links.

For most updates, it is enough just to print the new questions at the end of the new version, not the whole document.

**Feedback**

Feedback on specific questions should be send to [web@CramBible.com](mailto:web@CramBible.com). You should state: Exam number and version, question number, and login ID.

Our experts will answer your mail promptly.

**QUESTION NO: 1**

You are the administrator for your company Microsoft CRM 4.0 system, and have installed and configured it in your London office, using Windows 2003 Server Windows XP on the desktop computers. All users use the CRM client for Outlook. Your company has started business in Japan, and has employed some Japanese-speaking staff in London to support this business objective. These users would like the interface and help text to be in Japanese, and would also like the ability to display data, such as records of emails sent by Japanese customers, in the Japanese language. How can you achieve this?

- A. Install Microsoft CRM client for Outlook. Install the Japanese CRM language pack. Install support for East Asian characters on the operating system.
- B. Install the Japanese Edition of Microsoft Office. Install Microsoft CRM client for Outlook. Install support for East Asian characters on the operating system.
- C. Install Microsoft CRM client for Outlook. Install the Japanese CRM language pack.
- D. Install Microsoft CRM client for Outlook. Install support for East Asian characters on the operating system.

**Answer:** A

**QUESTION NO: 2**

Your company has a Windows 2000 mixed mode domain, CONTOSO, and a Windows Server 2003 Native mode domain, NORTHWIND. The two domains are in the same Active Directory Forest. Users in both domains need to access Microsoft CRM. On which combinations of servers could you install Microsoft CRM?

- A. A SQL Server in CONTOSO and a CRM server in NORTHWIND, or A SQL Server in NORTHWIND and a CRM server in NORTHWIND.
- B. The SQL Server can be in either domain, and the CRM server can be in either domain.
- C. A SQL Server in NORTHWIND and a CRM server in NORTHWIND.

---

D. A SQL Server in CONTOSO and a CRM server in CONTOSO, or A SQL Server in NORTHWIND and a CRM server in NORTHWIND.

**Answer: C**

- B. There is a maximum of 75 users.
- C. You cannot set up trusts to other domains.
- D. SQL Server Reporting Services cannot be used with SSL.

**Answer:** BC

**QUESTION NO: 7**

You are planning your installation of Microsoft CRM 4.0. You intend to install SQL Server to store the CRM data on one server, with the CRM application installed on a second server. All servers are running editions of Windows 2003 with the latest Service Pack. Which of the following combinations are valid? Choose the 2 that apply.

- A. Install SQL Server 2005 on Windows Server 2003 Standard Edition and CRM on Windows Server 2003 Web Edition.
- B. Install SQL Server 2005 on Windows Server 2003 Web Edition and CRM on Windows Server 2003 Standard Edition.
- C. Install SQL Server 2000 on Windows Server 2003 Standard Edition and CRM on Windows

---

Server 2003 Web Edition.

D. Install SQL Server 2005 on Windows Server 2003 Standard Edition and CRM on Windows Server 2003 Standard Edition.

**Answer:** AD

### QUESTION NO: 8

Your company has purchased new servers for Microsoft SQL Server 2005 and Microsoft Exchange Server 2007, as part of the infrastructure that will work with Microsoft CRM 4.0. Because these are business critical applications, it has been decided that both will be clustered. Which of the following configuration options should you choose?

- A. Active/Active clustering for SQL and Active/Active clustering for Exchange.
- B. Active/Active clustering for SQL and Active/Passive clustering for Exchange.
- C. Active/Passive clustering for SQL and Active/Active clustering for Exchange.
- D. Active/Passive clustering for SQL and Active/Passive clustering for Exchange.

**Answer:** D

### QUESTION NO: 9

You are planning the installation of Microsoft CRM 4.0 for your organization. You have purchased two servers, one for the CRM database, and one for the CRM application. The information in your system is commercially very sensitive, and your CEO wants to ensure that no data is transmitted in clear text at any point in the network. The CEO has asked you to configure this. What do you do?

- A. Configure SSL and require it for use with CRM.
- B. Configure the two servers and the CRM client computers to use IPSec.
- C. Configure the two servers and the CRM client computers to use EFS.
- D. Configure Group Policy to ensure that passwords meet complexity requirements.
